

# GLASS HOUSE Car Wash

*New Site in Independence, MO Showcasing Dual AUTECH Systems!*

**Featuring  
TWO AUTECH's  
Working  
Side-By-Side!**

*Glass House has two automatic bays featuring AUTECH EV-1 systems working side-by-side.*

*Both lines of Glass House's dual bay car wash are lined up daily/around the clock.*

*With an ultimate AUTECH clean as the reward, waiting in line is worth the time!*

Carey Grieb and son, Kenton Grieb, are owner/operators of **GLASS HOUSE CAR WASH**. Carey explains "one of the main reasons that we decided to do an AUTECH INBAY EXPRESS again was our experiences with OUR customers over the past 10 years since the installation of our first AUTECH. We have customers who drive 10 plus miles and who will wait in line for 45 minutes for our wash. When we ask them why, they say 'your car wash gets our car clean. It's that simple.'

The second reason we chose AUTECH is the professionalism of the whole AUTECH team, from the answering of the phone all the way through the whole organization. They are a very professional group and you can tell they are there for the customer and that means a lot to us. The customer service and technical support are very professional. They bend over backwards to help us. It's important to know that AUTECH is just a phone call away, ready to help us and give us the answers we need in our day-to-day operation.

I've been doing business for 50-plus years,

**AUTECH**  
*Car Wash Systems*

**1-800-438-3028**

AUTECH is leading the list of businesses that are top shelf, top quality type businesses. We like doing business with people like that who are professional and can take care of our needs," Grieb concluded.

Back in 2004, Carey Grieb contacted AUTECH about a car wash in Merriam, KS on some property that he owned next to his carpet cleaning business. At that time, the popular business model was an automatic with several self service bays. AUTECH supplied the EV-1 automatic for the site. Staying in touch with Carey, AUTECH's business model evolved to the AUTECH INBAY EXPRESS, operating 24/7 without labor or attendants and Carey and Kenton were attracted to the concept. Fast forward to 2015, and an all new site in Independence, MO with a double AUTECH INBAY EXPRESS in AUTECH's new hip roof design glass structure. The Griebs and **GLASS HOUSE CAR WASH** are experiencing great success in their first winter of operation; providing customers with unprecedented cleaning performance that keeps them coming back for more.
